

**MATHEMATICAL SCIENCES DEPARTMENT**

- |  |              |                  |
|--|--------------|------------------|
| <i>Tuesday, December 1, 2009</i>   | <i>2:00</i>  | <i>Ewing 336</i> |
| <b><i>Applied Math Seminar</i></b>   |              |                  |
| <i>Speaker: Benjamin Seibold, Temple University</i>  |              |                  |
| <i>Title: Exact particle methods and level set approaches<br/>with subgrid resolution.</i> |              |                  |
| <br>   |              |                  |
| <i>Wednesday, December 2, 2009</i>   | <i>12:15</i> | <i>Ewing 336</i> |
| <b><i>Graduate Student Seminar</i></b>   |              |                  |
| <i>Speaker: Qing Xiang, University of Delaware</i>   |              |                  |
| <i>Title: TBA</i>  |              |                  |
| <br>   |              |                  |
| <i>Friday, December 4, 2009</i>  | <i>4:00</i>  | <i>Ewing 336</i> |
| <b><i>Discrete Mathematics Seminar</i></b>   |              |                  |
| <i>Speaker: Donald Mills, Pennsylvania State University</i>                                |              |                  |
| <i>Title: Polynomials Generated by Lucas Sequences.</i>                                    |              |                  |
| <br>   |              |                  |
| <i>Friday, December 4, 2009</i>  | <i>2:30</i>  | <i>Ewing 336</i> |
| <b><i>Probability Seminar</i></b>  |              |                  |
| <i>Speaker: Christian Houdre,</i>  |              |                  |
| <i>Georgia Institute of Technology</i>   |              |                  |
| <i>Title: TBA</i>  |              |                  |
