Review Exercises for the First Exam  
Exam on March 10th, 2004

The exercises below are a guide for you to use while studying. You should not take this to be a comprehensive picture of the exam, but rather as a starting point for your studies. You should review your homework, your project work, your team exercises, and should read your text. For review problems, look at the review exercises at the end of Chapter 13 and try problems 1b, 3, 4, 5, 10, 11, 12, 16, 18-20, 21, 22, 25, 26-34, 36, 40-43, and 47. Also, look at section 14.1, problems 7-12, 13-20, and 21-22. Material from sections 14.2-14.4 will appear on the second exam.
